## WORK EXPERIENCE

### *Lead Developer / Fullstack Engineer*                                      Sept. 2021 – Present
*2Leaf Web Development*                                                        *Sacramento, CA*
- In a Scrum / Agile based environment, I am responsible for creating, maintaining, reviewing, and shipping software created for various clients around Sacramento and beyond.
    - Designed and developed features for web and mobile applications using React, React Native, Express, MongoDB, SQL, PHP, shipping overall 6+ projects within the last quarter year.
    - Designed, built, and managed a mobile app Vegans that help them find food options near them using the Google Maps & Places API with the help of our awesome community & their contributions to the database.
    - Shipped key features such as dynamic price editing, admin panels, and websocket based realtime chat, for a tax preparation as a service web app that acquired over 100 active users within the first week of its launch.
    - Participated in and occasionally led creative briefs, hiring interviews, and new stack pitches for our company, all which ultimately resulted in new clients or new tech stack choices.

### **Freelance Web Developer**                                               Oct. 2018 – Sep. 2021
*Freelance*                                                                   *Sacramento, CA*
- Designed, built, and maintained full stack web apps using ES6 Javascript and modern web technologies such as React, Redux, React Native, Next.js, MongoDB, SQL, Figma and more.
- Proficiency in Frontend and Backend web development to build personal projects for myself.
    - Utilized full capabilities of Javascript, HTML, CSS, modern ES6 methods, and the DOM.
    - Became an expert in React best practices, React Hooks, state management libraries, data fetching, and more.
    - Familiarized myself with CRUD design implementation as well as good REST api best practices for the backend.
    - Used my background in vector art to design component based SPAs using Figma and Illustrator.

### *Tier 2 Digital Engagement Specialist*                                    Oct. 2021 –Aug. 2022
*ModSquad*                                                                    *Sacramento, CA*
- As a Tier 2 Digital Engagement Specialist I built, moderated, and managed digital client communities
    - Managed the content and flow of online chat rooms, reviews, and contents for multiple clients such as Sony and Yelp.
    - Collaborated and workshopped with peers to create new content moderation guidelines that better adhere to client policies.

## PROJECTS

- **Projects:**
    - [HowVeg](#) - React Native app aimed to help Vegans and others find food that fits their life choices.
    - [Linkspring](#) - One-stop link in the bio tool created with NextJS, React, MongoDB, Node.js
    - [Thockey.io](#)- Minimalistic, smooth, type-test app - React, CSS, Node.js

## EDUCATION

**Sacramento City College -** Certification of Proficiency in Computer Information Sciences and Programming
